La Infopragmática **Lluvia lingüística: una herramienta de recuperación de información para actualizar a jóvenes investigadores**

Abril
2014

OBJETIVOS

1. DEMOSTRAR LA UTILIDAD Y EFICIENCIA DE LA LLUVIA LINGÜÍSTICA A TRAVÉS DE MATRICES DE VOCABULARIO CONTROLADO.
2. DESCRIBIR LA CONSTRUCCIÓN DE UNA MATRIZ DE VOCABULARIO CONTROLADO
3. CONTRASTAR RESULTADOS OBTENIDOS DE DIFERENTES SISTEMAS DE INFORMACIÓN ACADÉMICA COMERCIALES (SIAC) . PROVEEDORES ANALIZADOS: *PROQUEST, EBSCO, ELSEVIER*.
4. CONCLUSIÓN: LOS RESULTADOS OBTENIDOS INDICAN EL UNIVERSO SEMÁNTICO QUE UN JOVEN INVESTIGADOR DEBE CONSIDERAR PARA CONFIRMAR, MODIFICAR, ACTUALIZAR O CAMBIAR SUS TENDENCIAS Y MANUSCRITOS DE INVESTIGACIÓN.

Herramienta eficiente para recuperar información

Características lingüísticas

lingstorm

dictionary/thesauri

correct affixation

syntax

warrants entrance to controlled vocabulary

- avoids confusing results (nouns -> verbs -> adjectives)
- syntax observed

semantics

technical language

synonyms

antonyms

homophones

manages controlled vocabulary

- enriches results
- negotiates meaning through verbal aids

pragmatics

keyword

descriptor

hypertext

hyperlink

opens pragmatic new paths

- profits previous steps
- dynamises external links

Uncertainty theorem

I.- If there is no information is due to...

- User lacks lexical abilities
- Syntax is wrong
- Used terms are not equivalent in meaning
- Context is no the appropriate
- There is nothing in the used data base

II.- If the information does not fit is due to...

- Inappropriate technical language
- Incorrect spelling
- Key words or descriptors are not such

LINGSTORM SOURCES

Research

Basic steps

A small white 3D-style figure is standing and holding a red pen, pointing it towards a clipboard. The clipboard has several lines of text on it, with the first few lines having red checkmarks next to them.

1

- Write your research purpose and select the key words

2

- Get a lingstorm based on specialised thesauri or similar tools

3

- Consult an appropriate database

1

Write the purpose of the research

Example: To assess metallurgic slag as **Fenton-like catalyst** on **disinfection** water by means of slag- H₂O₂- **solar** light

2

Choose the words that represent the key of your research

Key words: Fenton-like, disinfection, photocatalyst, solar Fenton

3

Get a Lingstorm based on specialised thesauri or similar tools, by creating a matrix of controlled vocabulary, by means of related terms.

Example:

Fenton	Disinfection	Photocatalysis
Oxidation	Cleaning*	Catalysis
Catalytic oxidation	Water treatment	Photochemical reactions

The previous example the terms were collected from the thesaurus integrated in the **Engineering Village** Database, from Elsevier.

Do the combination of the selected terms to be entered in a IS:

A Fenton	B Disinfection	C Photocatalysis
A' Oxidation	B' Cleaning*	C' Catalysis
A'' Catalytic oxidation	B'' Water treatment	C'' Photochemical reactions

Check the results

Lingstorm comments

- Si considero los términos por separado
- Fenton:** 4331 resultados

Disinfection: 2854 resultados

Photocatalysis: 460 resultados

- Si uso los 3 primeros términos:

Fenton and disinfection and photocatalysis

no obtengo resultados

(**Descuido en la selección de la base de datos por demora**)

Esta búsqueda fue la más útil para los propósitos de mi trabajo:

Si uso sólo 2 términos

- **Fenton and disinfection:** 30 artículos
- **Fenton and photocatalysis:** 21 artículos
- **Disinfection and photocatalysis:** 21 artículos

Combinando los términos principales con los términos relacionados

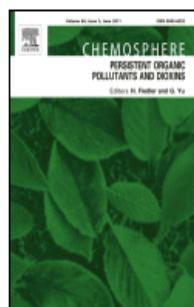

- **Fenton and cleaning and catalysis:** 2
- **Fenton and water treatment and photochemical reactions:** 9
- **Oxidation and photocatalysis and photocatalysis:** 166

- Esta actividad me permitió:

- 1) darme cuenta que al menos en esta base de datos **Fenton** no forma parte de un lenguaje controlado; no obstante, cuando realizo la búsqueda en la base de datos sí obtengo resultados Descuido en la selección de la base de datos por demora
- 2) Con el uso del thesaurus pude depurar la búsqueda de artículos relacionados con mi tema de estudio
- 3) Encontré al menos dos artículos de gran interés
- 4) Identifiqué una revista para publicación: *Chemosphere*.

Chemosphere

Welcome to the online submission and editorial system for *Chemosphere*.

Chemosphere is an international journal designed for the rapid publication of original communications as well as review articles. *Chemosphere*, as a multidisciplinary journal, offers maximum dissemination of investigations related to all aspects of environmental science. *Chemosphere* will publish:

- Original communications describing important new discoveries or further developments in important fields of investigation related to the environment and human health
- Reviews, mainly of new developing areas of environmental science
- Special, themed issues on relevant topics.

The following sections and subject fields are included:

- Persistent Organic Pollutants and Dioxins
- Environmental Chemistry
- Environmental Toxicology and Risk Assessment
- Science for Environmental Technology

Hints:

We strongly suggest you regularly check your spam folder for EES notifications. Update your '**Safe Senders**' list to ensure that emails from EES are not filtered into your spam folder. For information on how to do this, click [here](#).

Are you a new EES user? Please select [register](#) from the menu at the top and enter the requested information.

Are you an existing EES user for this journal? If you are already registered as an author or a reviewer, please do not register again. Select [log in](#) from the menu at the top, enter your username and password and then click the appropriate log in button. If your email or other address details change, you can update your EES account by selecting "change details" after you log in.

Are you an author and reviewer for our journal? You will be able to perform both these activities with your one EES account. Select [log in](#) from the menu at the top and enter your username and password. Then click the "author" or "reviewer" link in the left sidebar.

Introduction

Submission of Papers

All manuscripts should be submitted electronically through Elsevier Editorial System (EES) which can be accessed at <http://ees.elsevier.com/chem>.

During submission papers should be marked for the attention of a subject Editor or the relevant section, if possible. Failure to provide this information will significantly delay processing of the manuscript.

Types of paper

Chemosphere accepts Research Papers, Review Papers, Short Communications, Letters to the Editor, Replies and Discussion Papers. Please note that papers with a routine nature and lacking originality, novelty and uniqueness will not be accepted for publication.

A Short Communication should be of significant scientific merit (a novel finding that warrants immediate publication).

Linguistic Storm II

Purpose:

The purpose of this paper is to describe a comprehensive characterization of fungal metabolites by means of the active extract of an endophytic fungus bioassay guided fractionation.

Selected keywords:

Endophytic fungus / endophytes

Antifungal / anti-fungal / fungicides

Herbicidal / herbicides / phytotoxicity

1 st keyword	2 nd keyword	3 rd keyword	Counts
Endophytic fungus	Antifungal	Herbicidal	29 *

HOMEWORK WORKSHOP PUBLISH YOUR RESEARCH. ▶

Aby Casas to you show details ▾

DESCRIPTION_OF_CHILD_HUMAN_RIG...docx (256 KB)

- Hola Rafael:

Te envío en documento anexo el título, el propósito y las palabras clave del artículo, con la búsqueda que hice en pubmed.

Tengo algunas preguntas:

- - 1) Busqué los términos del vocabulario controlado, el cual incluí en las palabras de mi propósito, pero no encontré una palabra en vocabulario controlado para **pediatra**, solamente physician, ¿me recomiendas que quite este término como palabra clave, porque physician no se ajusta exactamente a mi propósito?
 - 2) En pubmed en los términos mesh (vocabulario controlado) encontré la definición de **child como niño en edad escolar**, y **minor que abarca a todos los menores de edad**, pero en la búsqueda existen muchos más artículos y que si están relacionados con mi tema con la palabra child. En mi artículo yo describo a niños de todas las edades, ¿me recomiendas que deje la palabra minor?

Esta búsqueda fue muy ilustrativa y productiva, identifiqué los términos de inglés controlado de mi tema, encontré algunas revistas que no tenía idea que existían super específicas para el mismo, creo que por fin encontré vocabulario más adecuado para mi propósito y encontré artículos útiles que me servirán de referencias.

En el documento que te envío lo primero hasta donde inicia background es la tarea, lo demás ignóralo por favor, son los ensayos y búsquedas que hice hasta llegar a la parte de arriba.

Un favor, puedes enviarme el link de la clase pasada. Gracias.

Que tengas buena tarde.

Aby Casas

Resume

- Define and write your research purpose
- Consider lingstorm steps
- Select an appropriate IS
 - Look and demand for linguistic tools

A brief survey on the utility of Lingstorm

1. How did you find the *Lingstorm* as a tool to retrieve pertinent information?

Not useful _____ Not very useful _____ Totally useful _____

2. Did you use an Information Retrieval tool before using *Lingstorm*?

NO _____ YES _____

3. Would you like to take a workshop to work more on *Lingstorm*?

NO _____ YES _____

4. Would you recommend the *Lingstorm* to your colleagues?

NO _____ YES _____

5. What element, do you think, *Lingstorm* misses to be more complete?
